

End of the year plans for middle school 2017

Parents,

We are getting close to the end of the 2016-2017 school year. The schedule will be a little different for middle schoolers, so we wanted to let you all know ahead of time what to expect. Please be sure to note the portfolio days and the EOG testing days- these dates are extremely important for all students to be in attendance!

Each grade level will be attending their own field trip on June 5. Attached you will find information regarding your child's specific field trip. If you have any questions please contact the field trip point person, as indicated on the information sheet. Sign-ups will be going out for chaperons and snack donations around the beginning of May.

Thank you!

The Middle School Team
